

IBS-Group Company Profile

With a remarkable 20 years' experience covering a wide range of large events, from product launches under the iconic Burj Khalifa to opening ceremonies overlooking the renowned Palm Jumeirah. We stimulate our clients to bring their productions to life. IBS-Group has an unmatched passion and enthusiasm to create personalized projects that suits all client's diverse ideas and requirements. We provide an in-depth staging solution, allied with the best available technology that lets us confidently enjoy the moment with our client, creating lasting memories and unforgettable experiences.

IBS-Group is all about creating events that work by combining inspirational ideas with practical solutions. We are passionate and committed to our clients through our good value and high quality services, whilst having fun, laughing and achieving the extraordinary together. We aim at being focused on building the best stage set as well as building long-term relationships with our clients and community. Using our creative gift drives the foundation of providing high impact events that exceed all expectations, placing us as the leading set and stage company in the UAE.

IBS-Group currently employ over 100 full and part time members of staff, comprising of experienced project and production managers, set and stage designers, procurement specialists, skilled and experienced carpenters, painters, rigging specialists, electricians, and audio/visual technicians. Working together on the daily requirements, allows each individual the opportunity to become the canvas to your imagination.

We strive to embrace and drive change in our industry, delivering sets, stages and equipment to many countries including UK, Hong Kong, Bahrain, Kuwait, Qatar, Saudi and Oman, which allows us to stay relevant and always ready to adapt. IBS-Group is all about the experiences that bring excitement and exhilaration into our clients lives. We do not wait for the perfect moment, we take the moment and make it perfect.

Alan Scoley, CEO
